

Dear Valued Clients of Quasar,

We realize that since we offer a wider range of real estate services than most property management companies, that accessing applicable sections and available resources on our website, may be a bit confusing at times. Therefore, we thought it might be helpful to provide this guide in order to make things simple.

If your account is not already activated the process will begin with registration through a text message or email sent from Quasar. After your initial registration you can access your account.

Logging Into Your Portal & Paying Your Fees
